Welcome to PPP, which will be produced by and for children in Nottingham City schools. Before this, we take a look back at the last primary parliament sessions. Primary Parliament returned this November with sessions at The Council House for Year 5 and 6 children attending Nottingham City primary schools.

The theme of ‘Learning and Earning: Education, Work and Training’ was explored through a solar-powered vehicle project. The task saw children designing, building and marketing an eco-vehicle of the future- all in the space of a day. Innovative cars, buses, bin lorries and ice cream vans were created, with a focus on renewable energy- the sun even came out on the Friday session, enabling the prototypes to whizz across the floor. The levels of enthusiasm and engagement were incredible throughout and the product launches in the afternoon, hosted by The Sheriff and Cllr Mellen, were a triumph. A huge thank you to everyone involved.
Primary Cabinet Meeting

Thursday 14th December 2017
Loxley House

Primary Cabinet members representing schools across the City met to discuss current issues facing Nottingham, solutions, and future jobs.

The session included a variety of activities designed to stimulate dialogue and build the leadership skills of the students and strengthen their working relationships as a group. Councillor David Mellen, the Portfolio Holder for Early Intervention & Early Years then chaired the meeting, which was followed by a Christmas meal.

We would like to thank the cabinet members for their excellent, thoughtful and mature contributions throughout the day, and all staff who facilitated the event.

If your school wasn’t involved, please don’t feel left out- we will be on the lookout for more Primary Cabinet members in future Primary Parliament sessions. If your school is interested in attending in 2018 please contact: L.Abbott@bulwellacademy.co.uk

YOU COULD BE IN THE NEXT CABINET!
